

Build an Open Source Badge with GoEnnounce

Create credentialed badges on GoEnnounce for your students! These badges follow the Mozilla [Open Badges - https://openbadges.org](https://openbadges.org) guidelines. We will provide a way for you to issue badges to your students via your Classroom Dashboard. Students will be able to copy and display these badges anywhere that accepts Open Badge currency.

BADGE DELIVERY REQUIREMENTS:

Example Badge as reference - <https://goennounce.com/badges/1>

Issuer:

- Full Name and URL of who you would like to be listed as the “Issuer”.
- Issuer email address
- Issuer Logo file (jpg, png, 200+ pixels square)

(Example Badge - Issuer is GoEnnounce)

Design - Your badge design must delivered in a layered Adobe Photoshop or Adobe Illustrator file

(Example Badge Image -)

Design Dimensions - Minimum 500x500 Pixels, Square

Short Description - i.e a “Tag Line”

(Example Badge Short Description - **Certifies Students in Digital Citizenship**)

Long Description - Additional description about students accomplished. Per Open Badge standards referenced above, only 255 characters will transfer to copy this badge and

place outside of GoEnnounce. However if your badge description is longer than 255 characters, that's ok for badges on GoEnnounce. GoEnnounce do not have a character limit for your badge description display. We will display the description exactly as your provide it.

Example Badge Long Description

Students earn the Digital Citizen badge by completing GoEnnounce's Digital Citizen online class on GoEnnounce.com

To receive the certification students completed a competency-based course and submitted hands on assessments in the following subject areas:

- *Digital Footprint & Safe Social Media Use*
- *Online Health, Safety and Wellness*
- *Digital Etiquette*
- *Digital Literacy*
- *Digital Commerce*
- *Cyberbullying*

GoEnnounce's online competency-based course is designed to sharpen students' digital citizenship skills. Students' assessments were evaluated by GoEnnounce's team of credentialed educators to be awarded the micro credential badge. Assessments are deemed proficient based on this [rubric](#).)

Meta Data Description

- **Badge name:** recalls the content of a skill or achievement in few words.
- **Description:** provides the details of the achievement: describes the context, specifies the achievement, refers to completed tasks, explains the assessment procedures.
- **Criteria:** tells about the tasks set by badge issuer and completed by badge earner to qualify for specific badge. (optional)
